COMPLETION REPORT
SURVEY AND PLANNING GRANT PROJECT
(Due 60 days after project completion)

Project Name: Preservation Technology Training Program

Location: Center for Architectural Conservation, Georgia Tech, Atlanta, GA

Contract Number: 441-49037

Subgrantee: Georgia Tech Research Corporation

Address: Georgia Tech, Atlanta, GA 30332

Project Manager: John H. Myers 894-3390

Consultant(s): None

Total Project Cost: \$11,785.00 Grant Share: \$5,500

Local Share: \$6,285

Date Project Work Began: 9/15/85 Date Project Was Completed: 6/12/85

Result of Project: 1) Architecture student received practical H.P. work experience,
2) Technical Information leaflets were prepared on 15 architectural materials.

Project Summary:
See attached.

Completion Report Summary

The purpose of the project was the support of preservation education by providing actual work experience in historic preservation subjects in the State Historic Preservation Office (SHPO).

Several excellent graduate students expressed interest in and applied to participate in the program. One student was selected to work on the development of technical information, on materials, for use in the public information programs of the SHPO. Regular coordinating meetings were held between the Center and the SHPO to monitor and review the progress of the student.

During the program, the student collected, reviewed and edited data on fifteen historic building materials into a format developed by the SHPO. The data covers composition, appearance, history, examples of use, problems, repair considerations and sources of supply for each material. This vital information is now available under one cover for use by the SHPO. The student's summary of the project is on file. His comments on the amount of work done and the knowledge and experience he gained in this project are evidence of its very successful completion.

Distribution of the information sheets can occur in many ways including but not limited to the following:

- direct mail of single copies on request
- direct mail of bound sets on request
- once a month inserts in the newsletter "For Your Information"
- cooperative efforts with NPS

All work has been completed and all project data has been delivered to the SHPO. The Center and the College appreciate the support for preservation education and believe this model can be used in the future.
